

Weldricks Pharmacy - A Family Tradition

H I Weldrick Limited is a family run pharmacy group based in the South Yorkshire region.

Weldricks Pharmacy are acknowledged as a forward thinking and progressive company. Despite ongoing political and economic changes in the UK the group has never lost sight of its local values, continuing to invest in providing pharmacy healthcare within the heart of the local community. The company now has 53 community pharmacies throughout Doncaster, Rotherham, Sheffield, Barnsley & Lincolnshire.

Our Mission Statement

***"Committed to Community
Healthcare"***

OUR PHILOSOPHY

Professionalism

We firmly believe that to serve the community requires a constant commitment and professional attitude to healthcare needs.

People

By selectively employing highly qualified and motivated individuals, together with ongoing training, Weldricks Pharmacy have a superb team capable of serving the community.

Research

We continually gather information from all available sources to keep us at the forefront of community Pharmacy.

The Training Programme

Students undertaking mock examinations at our training centre

Your pre-registration year is the most important year of your career, our concern is to ensure that you pass your exam and to also ensure that you are given a confident start to your professional practice as a pharmacist.

With years of past experience in pre-registration tutoring and the excellent pass rate of 100% we have both the commitment and the expertise to ensure that you are successful.

Weldricks pre-registration tutors have a proven track record. They are experienced Pharmacists with a wealth of knowledge for you to tap into throughout the year. You will work closely together to fill in any gaps and build on your strengths. It is our aim to ensure that you are well prepared for your exam whilst providing a varied insight into your chosen career. You are given the opportunity to concentrate on

pharmacy, not retail issues.

Choosing the best pre-registration placement is critical. At Weldricks we understand that moving away from University and your friends can be very daunting and sometimes lonely. The area offers a wealth of rented accommodation to suit all pockets. To ensure that you quickly feel part of the Weldricks team you will be encouraged to attend social events and regular Pharmacy Forums. These events provide the opportunity to meet fellow pre-registration students and pharmacists within the group in a social and relaxed atmosphere, whilst keeping you up to date on current company activities.

Our training programme contains:

- *Monthly sessions held at our Branch Support Centre (BSC) training facilities, run by our Teacher Practitioners, Professional Development Co-ordinator and our Pre-registration Co-ordinator.*
- *Placements or visits including hospitals, local substance misuse clinics, GP surgeries, specials manufacturing units, University of Bradford pre-registration sessions, local GP out of hours service. Full first aid training and certification.*

- *In Pharmacy activities; as well as the normal day to day learning on the job, we provide NVQ modules on the Drug Tariff and on Law and Ethics.*
- *We also provide extensive calculation papers, and ensure each student undertakes six mock pre-registration examinations, under exam conditions.*

We like to think that we prepare our students thoroughly for the examination and for their professional career ahead.
